

Thierry Dafflon - Spiritual Artist Medium

Bridging the two worlds through art.

Since my childhood I have lived a natural, light and joyful mediumship, and navigated ingenuously between the two worlds: the real and the unreal.

As an adult, during several years of training and improvement, I developed my current activity as a medium, healer and spiritual advisor, among others at Arthur Findlay College in England.

The unexpected added value of my spiritual training is to have linked mediumship and artistic expression. Exploring a whole range of original techniques, my field of contacts with my team of spiritual guides has expanded.

I call this: *bridging the two worlds through art.*

Medium - Spiritual artist - Intuitive healer – Coach – Costume designer – Teacher
